## **Chafing Dish Instructions**

- 1. Fill water pan with 1"-2" of hot water
- 2. Use only sterno fuel
  <u>Never</u> use lighter fluid or other flammable substances
- 3. Place sternos into holders and light
- 4. Let water sit for 20 minutes before food pan is placed on top of the water pan
- 5. Cover food pan once it is placed on top of the water pan
- 6. When sterno is empty be cautious when handling as the temperature of sterno will still very hot to the touch
